

Payment terms cash impact - why Lux proposes net 30

The bank problem

Comparable result (illustrative open-book TI pay apps)

Ninety (90) days	Peak float ~\$394,020 (multi-month trough)
Forty-five (45) days - settlement band	Peak trough ~\$163,210 (shallower)
Thirty (30) days - Lux ask	Stays above zero (no multi-month trough; ends ~+\$200k)

Ask

Not a commitment until executed. Kill fixed-price CM language; keep monthly percent-complete open book.
